

RAM SIT HARNESS - SIZE M/L

Product use

The easy to fit lightweight flexible sit harness is suitable for Mountain Rescue technicians where the harness is worn for short durations only. Front ventral anchorage loop for rescue and rope access.

The belay connection link distributes the loads to the larger muscle groups to minimise discomfort and suspension trauma and maximise productivity.
Can be used in conjunction with the ITC Chest harness for front fall arrest anchorage point (EN361)

Technical description

Webbing

100% polyamide

D-ring

Steel-covered carbon
Strength: >5000daN

Temperatures

-30°C to +50°C

Weight

1.6kg

Standards
