TOWER HARNESS

Product use

The **TOWER HARNESS** is a comfortable, heavy duty, all round full body harness, with sit harness function. It has been specifically designed to work on towers, and incorporates a wide comfortable support belt, which helps prevent back injuries.

The back D-ring and the chest twistlock safety hook are used as **fall protection**. Both D-rings on the belt are used for **work positioning**, and the front waist D-ring is used for **suspension**.

Technical description

Climbing and ascent
Confine space
Evacuation and descent
Rescue
Rope access
Work positioning
