

MILLER®

FALCON

GUARDING YOUR SAFETY

The FALCON personal fall arrester stops a fall within centimetres thanks to its **quick-activating braking system**. The reduced fall distance **limits the risk of injury**. The retractable webbing lifeline eliminates tripping and snagging hazards.

► **GREATER SAFETY**

Weighing **only 1kg**, the FALCON offers a practical alternative to standard fall arrest lanyards. Thanks to the **ultra-compact** design of the housing, the FALCON can be worn comfortably on the back of the harness and used like a shock absorbing lanyard.

► **MORE COMPACT AND LIGHTWEIGHT**

With its plastic housing, steel braking system and polyester webbing, the FALCON offers a **longer service life** than conventional fall arrest lanyards.

► **LOWER COST OF OWNERSHIP**

DESCRIPTION

Miller Falcon PFL: retractable webbing lifeline with swivel and 2 karabiners.

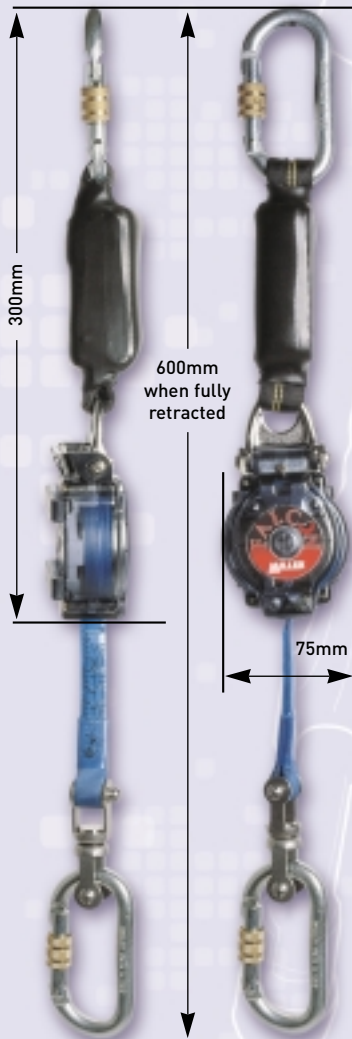

Ref.: 10 112 70

TECHNICAL

- Weight: 1kg
- Working capacity: 1.75m
- Maximum braking force: 6kN

 : complies with EN 360
