

RGA1 Mini Fall Arrest Block

Accredited To: EN 360

Web Material: 47mm Polyester

Connectors: RGK1

Weight: .1.4kgs

Features: Built in shock pack

Max Fall Arrest Load <6KN

The RGA1 is a retractable mini web block ideal for personal issue to operatives working at height. The unit is designed to be connected, and worn directly on a fall arrest harness.

The RGA1 has an almost instant “lock off” in the event of a fall, and recoils into the drum when slack is introduced into the lanyard. The reduced trip hazard and compact design make this unit ideal for tight work and tasks where a shorter arc of mobility is required. The RGA1 can also be fitted to most horizontal lifelines, but always check with the manufacturer prior to fitting.

The RGA 1 has a working length of: 2.5 metres

(For details of daily inspection procedures, see the info sheet)
