

SCORPION PFL WITH SCREWGATE KARABINER AND SWIVEL SNAP HOOK

Product use

Light and compact, the self retracting personal fall limiter block SCORPION offers greater safety compared to the traditional fall arrest lanyard as it eliminates the need for extended fall distance clearance. With a maximum working capacity of 2.80m and thanks to its high durability cover, it can be attached directly to the harness D-ring and used like a traditional fall arrest lanyard.

Technical description

Cover

Impact-resistant thermoplastic over aluminium

Housing

Aluminium

Hub

Zinc

Braking mechanism

Stainless steel

Webbing

Polyester, 2.5MM wide x 1.5mm thick

Snap Hook

Zinc-plated, automatic snap hook with 22mm opening

Maximum working load

140.6kg

Working capacity

2.7m

Lifeline tension

13.3 to 17.8 N

Maximum braking force

6 kN

Weight

1.42kg

Standard

EN360
