

RGH12

APPROACH SIT HARNESS RGH12

The Approach harness is a lightweight sit harness designed for climbing.

This harness is exceptionally simple to don and comes with a colour coded right leg, which also signifies its size allowing for fast size allocation in typically busy environments. The Approach harness is highly adjustable, meaning it can accommodate for changes in clothing layers. Adjusting is made simpler with large webbing ends improving grip. It also comes with a gear loop to stow unused equipment.

Available in two sizes to facilitate a wider span of varying user needs.

- / Gear loop
- / Colour coded webbing
- / Colour coded attachment point
